FFA Schedules

No changes.

OU 1 Groundwater Remediation

Separate meeting held earlier in the day.

OU2 and Sites 2/12 Treatment Systems

Routine operations. OU2 averaged 779 gal/minute. Sites 2/12 averaged 327 gal/minute. A handout was provided.

OUCTP RI/FS

The RI/FS has been submitted and is presently under review by the agencies and public.

GW Treatment System Optimization

SVE - The SVE probes were recently sampled to check for possible rebound in the soil gas. The SVE report was delayed to include this data.

Site 2/12 Air Stripper – Comments are due today on the air stripper report. EPA is still reviewing the document. DTSC has internal comments which will be submitted after review.

OU2 –work plan is in prep for the aquifer test of the new extraction well. It may be submitted as a work plan variance to the well installation work plan. The pipeline design is complete and procurement is in progress.

OU2 Landfill Gas

Installing pipeline around Cell F and procuring a thermal treatment unit.

Basewide Range Assessment

Latest field investigation is complete. There may be one more area to investigate for the ESCA, MR Site 13B.

Site 39 Eco Risk Work

Rev C of the Ecological Risk Assessment Report was issued 5/31/05.

Site 3 Eco Risk

A separate meeting was held 6/9/05 to discuss the post remediation monitoring work plan.

Range 36A Activities Closure

The revised plan was submitted to DTSC 5/27/05. The public notice is in prep by DTSC and is planned to be issued 7/18/05. Present schedule would result in a possible date of late December to start the field work. Since the site includes a seasonal wetland, the work may be delayed until late spring.

East Garrison Ranges Interim Action

Work to begin next week.

FOST/FOSL/FOSET

Topic was discussed at the MR BCT.

Proposed ESCA schedule

The next meeting is scheduled for 7/12-7/13/05. Topics to include MR issues and the OU2 landfill O&M.

Calendar Update

The calendar of meetings was updated.
