Agenda

OU1 Groundwater Remediation - HGL	Status Update
OU1 Off-Site	Status Update
OU2 and Sites 2/12 Treatment Systems	Status Update
Other Groundwater Issues	Status Update
OUCTP Pilot Study	Status Update
OU2 Landfill Gas	Status Update
Basewide Range Assessment	Status Update
Site 39 ROD Addendum	Status Update
Five Year Review	Status Update
FFA Schedules	Status Update
FOST/FOSL/FOSET	Status Update
Calendar	Update

Operable Unit 1 (OU 1) Groundwater Remediation – HydroGeoLogic (HGL)

Separate minutes will be provided by HGL.

OU 1 Off-Site

The treatment system started operations 8/6/08. The additional monitoring well within the City of Marina was installed 7/28/08 and was developed 8/8/08. Permanent power was installed 8/13/08. A handout of the status of the pilot study was provided.

Operable Unit 2 (OU2) and Sites 2/12 Treatment Systems

OU2 – The system operated with an average flow of 659 gallons per minute (gpm) for August. Operational issues were described in a handout.

Sites 2/12 –The system operated at 147 gpm for August. Operational issues were described in handout.

The Draft OU2 Expansion Construction Competition Report comment period ended 7/15/08. It was agreed that this report can be considered final.

Other Groundwater Issues

Groundwater Sampling – The annual groundwater sampling began 9/15/08. EW-OU2-01-180 has been added to the quarterly sampling schedule due to recent detections of TCE. The pump in Mini Storage well may not be repaired before the September sampling but should be repaired by December.

Operable Unit Carbon Tetrachloride Plume (OUCTP) Remedial Action

Shaw provided a presentation on the Draft Operable Unit Carbon Tetrachloride Remedial Action Work Plan. The document was submitted 9/15/08. A handout was provided.

OU2 Landfill Gas

The Thermal Treatment Unit (TTU) system is operating three days per week. Methane levels are steady at 40%. A handout was provided.

Basewide Range Assessment

Draft No Action Approval memos for Sites HA-79, HA-92, HA-98, HA-100, HA-121 and HA-183 were submitted for agency review 5/6/08. RWQCB and EPA have submitted comments. DTSC is currently reviewing the documents.

A Draft Interim Action Approval Memo for site HA-161 was submitted 6/10/08. RWQCB has submitted comments. EPA and DTSC will submit comments.

A letter was previously distributed presenting the preliminary analytical results of the soil sampling at the site of the discovery of fragments of a Levin's projector and associated TNT during excavation within an ESCA parcel along Gen. Jim Moore Blvd. The final analytical results have been received and there are no changes from the preliminary results. The Army will submit a letter with the final analytical results.

Site 39 Record of Decision (ROD) Amendment

The Draft Final ROD Amendment was submitted electronically 9/17/08 for a 30 day review. The Army proposed an additional modification to the document to clarify the procedures to follow if additional sampling is necessary after MEC removal (page 2, line 3). The additional text will be added to the next version of the document.

FFA Schedules

No changes necessary.

FOST/FOSL/FOSET

FOSET 5 and FOST 10 – All CRUPs have been signed. All deeds have been finalized by the Army. Deeds are awaiting signature by FORA.

Calendar Update

See handout.
