Glen Mitchell, USACE  
Gary Griffith, Parsons  
Chieko Nguyen, DENR  
Juan Koponen, USACE  
Kevin Siemann, DENR

Pam Couch, DENR  
Patti Berry, USACE  
Evelyn Rudek, Parsons

**Action Items List**

Action Items list was updated from May OE BCT meeting.

- Removal Action Updates submitted to agencies will also include meeting minutes.
- USFWS concurred that no net loss would occur with East Garrison/Parker Flats proposed land use/habitat swap, therefore no formal consultation would be required.

**Track 0 Record of Decision**

- DTSC is reviewing disclaimer language and is evaluating whether to sign the ROD or not.
- EPA has minor wording changes and will provide to Army later today.
- EPA is considering sending a letter to Army sometime next week to reiterate their position regarding OE being considered a hazardous substance, although this will not affect the Track 0 ROD.
- EPA does not think DTSC needs disclaimer language for Interim Action Record of Decision because of the commitment to re-evaluate the Interim Action in the final Record of Decision.

**Track 1 OE-62 (working draft)**

- DTSC suggested mentioning the background/qualifications of Mr. Stephani while he was stationed at Fort Ord.
- DTSC requests a better explanation of training-related terminology and terms either in a glossary of terms or in an appendix.
- A request was made to list the number of small arms and pyrotechnics found during reconnaissance.
- Need to explain RAC score
- Add an executive summary at the top of each site-specific section.
- Harding to look into adding more level of detail in basewide range assessment.

**Removal Action Update**

- East Garrison investigation concept in the works. To be discussed by SMART team.
- Removal Action Update handout was provided.
- R43-48 cleanup approach was discussed. A map detailing R43-48 was provided as a handout.
- Del Rey Oaks prep work for machine gun area and berm has begun. DTSC to provide comments on draft final work plan.

**Chartwell School plans**

- A tour of the Chartwell School site was given.
- BCT discussed the nature of adjacent OE-49 boundary and agreed to begin consideration of boundary refinement.

**IA RI/FS Schedule Review**

- Changes to the Interim Action Schedule were identified.
- Draft Air Emissions Sampling and Analysis Plan will be sent electronically to EPA and DTSC for review. Hardcopy of letter documenting that the file was sent electronically will be mailed to agencies and submitted in the Administrative Record.
- Draft Vegetation Clearance Tech Memo was issued 5/28/02. Comment due date to be resolved due to request from Air District for additional time to review.
- Schedule to be revised to reflect discussions and resent electronically to the agencies (Dan Ward, Rizgar Ghazi, John Chesnutt).

**OE RI/FS Schedules**

- Preliminary Draft Track 1 report was delayed one week to 6/21/02; Draft to be issued 8/20/02.
- Risk Assessment Protocol issue date revised to 6/19/02.
- OE RI/FS schedule to be revised once DTSC provides input.
