Dear Mr. Ridenour:

Please note that the next scheduled primary documents related to Operable Unit 1 will be draft and draft final versions of the *Operable Unit 1 Closeout Report*. These reports will also include the *Operable Unit 1 Well Destruction and Northwest Treatment Plant Decommissioning Completion Report* that documents the demolition activities of the remaining OU-1 groundwater wells and the decommissioning of the Northwest Treatment Plant in July 2017. The schedule for these two reports was discussed at the August 6, 2017 BRAC Cleanup Team meeting. All were in agreement with the proposed schedule which is attached.

A copy of this letter has been furnished to Mr. Min Wu of your office, Ms. Maeve Clancy of the U.S. Environmental Protection Agency, Region IX, and Mr. Grant Himebaugh of the Regional Water Quality Control Board. Please feel free to contact me at (831) 242-7920 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "William K. Collins".
